

Fall 2024 Pine Straw Application Info & Forms

Hello, Sun City North & Sun City West Residents.

With Fall quickly approaching, BrightView is preparing for the Fall 2024 Pine Straw Application!

This biannual service (which is included in your landscape service benefits) includes the professional installation of fresh pine straw in all developer installed plant beds to give a nice, fresh, appearance, twice per year (each Spring & Fall). The Fall 2024 application is tentatively set to begin on Monday, October 14th!

During this service, BrightView offers the option to purchase additional bales that can be professionally installed for you in the area(s) that you designate or delivered to you for self-installation. The cost is **\$9.00 per bale** which **includes installation** (there is no discount for self-installation). Please click the link at the bottom of the page if you would like to take advantage of this service.

Sometimes residents have unique circumstances regarding the Pine Straw Program, please read the following to see if you will need to fill out a form.

You do **NOT** need to complete a form if you...

- currently have existing pine straw in your developer plant beds and would like to have new pine straw installed in those areas. They will install fresh pine straw for you automatically!
- currently have a different landscape plant bed material (such as rock or mulch) which you are keeping. They will skip over your plant beds automatically!

You **DO** need to fill out a form (by clicking one of the links below) if you...

- are interested in ordering **ADDITIONAL BALES** of pine straw at \$9.00/bale.
- currently have a different landscape material (such as rock or mulch) but would like to **OPT BACK IN** to the biannual pine straw applications.
- have (or plan to) cleaned out old plant bed material in your developer plant beds & want pine straw installed (please see the Special Notice below).
- would like to **OPT OUT** of the upcoming pine straw application because you have plans to install a different landscape material in the near future.
 - Please be aware that opting out will **not** result in a reduction of your Landscape Benefited Fee Assessment.

***SPECIAL NOTICE:** *Although it is **NOT** required, those who would like to remove the old plant bed material prior to the installation of the new pine straw, please ensure it is completed **before** the start date. If you choose to do this, you may do so yourself or hire any vendor of your choice, as this is a resident responsibility (not an included service). Also, please note that the crews are instructed to only apply new pine straw to developer plant beds with existing pine straw & those on the opt back in list. Therefore, to ensure your home is not skipped (if you remove the existing plant bed material), we strongly advise you to please "opt back in" by submitting the "Opt Out/Opt Back In" form (link provided below).**

The DEADLINE to submit either form is Monday, October 7th, at 7pm!
