

Sun City West TEAM REACH TUTORIAL

Many (most) people in SC West are new to TeamReach.

Mary Ann Nichols of Oyster Bay put this little tutorial together, and we've broadened the scope to meet today's expanding role of TeamReach in our neighborhoods. (When you see "I", those are Mary Ann's suggestions.)

We hope it helps with our neighborhood communications.

CURRENT SC WEST TeamReach GROUPS YOU SHOULD BE AWARE OF...

Sun City West Neighborhoods: SCHH-29909

Your Neighborhood Group

SCW BB Goods & Services: SCWestBB-29909

- ***Do not share these codes outside of your neighborhood/Group***
- ***Members are not anonymous, nor can they be from outside of SC West.***

(Don't invite a handyman from the South Side to post on the Bulletin Board, don't create a SC West bocce team with players outside SC West, and then add them to the Bocce group)

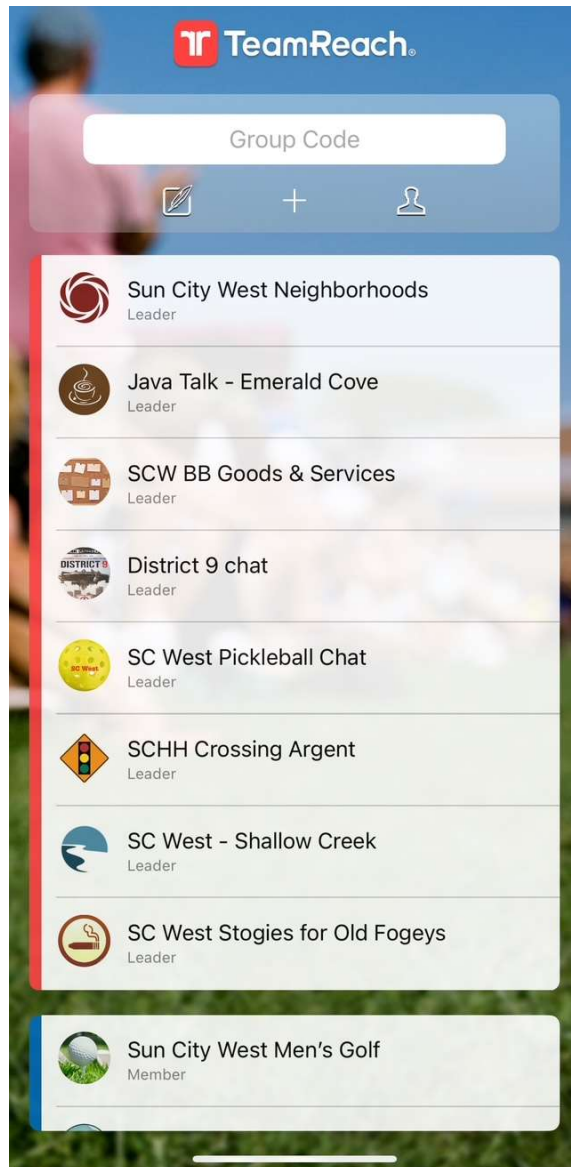

- ***Rules of the road are posted on the main SC West Neighborhoods archives...
No Politics, be kind... etc.***

NOTIFICATION BADGES AND SOUNDS!

First things first, since there is quite a lot of activity on Team Reach, most of us have turned off the notification sounds. On an iPhone, go to Settings, Notifications, and then scroll all the way down to the list of all your apps until you see Team Reach. Tap on it. You can choose how you want to be notified of activity on this screen. I personally only receive "badge" notifications. Meaning, no sounds or emails or lock screen alerts. Just a little red number by the Team Reach app to let me know something is going on. I can't advise about other phones. Hopefully someone can show you if you don't know how to do this on an Android, etc.

NOW ONTO THE GUTS OF HOW WE COMMUNICATE IN SC West:

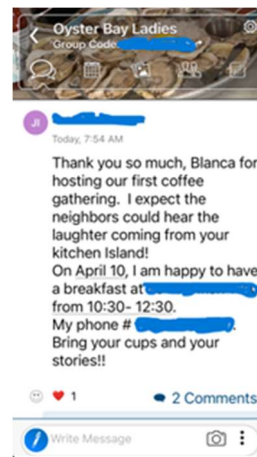

When you open the Team Reach App , you will see all the Team Reach groups that you are involved with. It will look something like this:

Tap on the group in which you want to see posts. You will see the most recent post at the top of all the other posts. It might look like these posts:

OR

If you want to comment on that specific post, you need to tap **somewhere in the text of that post**. That will open the post and all comments. Do NOT comment by writing in the box at the bottom of the screen BEFORE you tap into the post. If you do this, your comment will be separate from the original post. Pay attention to the text box. If you see “write message” in the text box at the bottom of the screen, you start a new post. If you see “write comment”, you are responding to a post.

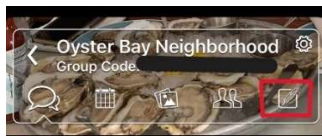

This is what it looks like when you tap on the text of a post to open it up all the way (original post and comments):

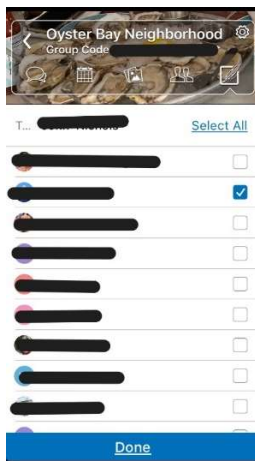

REGARDING DIRECT MESSAGES!

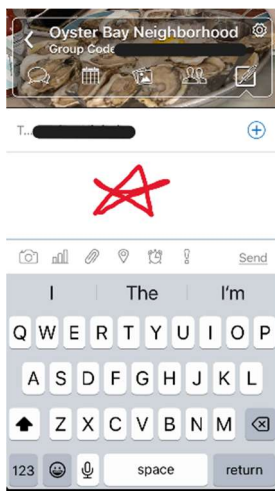

If you need to send a Direct Message (DM) to someone, tap on the feather at the top right of the screen in that group. Here it is in the **red** square:

When you tap on the feather, it will open a screen with all the members listed. Tap on the box on the right side of the screen of the person(s) to whom you want to send a message. It looks like this:

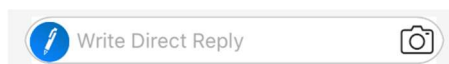

When you tap the box of the person you are contacting, you will see a blue box with a check (see above). Click done at the bottom of the screen. This will open a screen where you will write your message. Write your message in the box where the red star is located (below here):

If you are the *recipient* of a Direct Message, you will see it on the main screen when you open the group page. You will see the words “Direct Message” in a blue box at the top right of the screen. It will look like this:

Be VERY SURE to tap on the **message text** to enter the message PRIVATELY. If you respond in the box at the bottom of the screen before tapping into the message, you will reply PUBLICLY in a brand-new post, and the text box will read, “Write Message”. If you DO tap into the message, the text box will read, “Write Direct Reply”.

Unfortunately, it’s not possible to go somewhere on the app and see all your DMs. You must scroll down the main screen of the group until you see it. Then you need to tap the message to open it and see all the comments – and to comment.

HOW TO EDIT OR DELETE A POST OR COMMENT

Tap into a post. This will open the conversation. Next to your name where you commented, you will see 3 dots. (circled in red on photo.) Tap it. You will see options to “Remove, Edit, or Cancel”.

CALENDAR EVENTS AND HOW TO RSVP

To RSVP to a calendar event, tap on the calendar icon at the top of the screen.

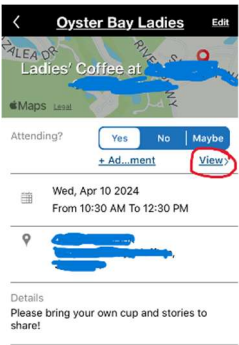

You will see any upcoming calendar events listed.

OR

Tap the event which you want to see the details or RSVP. It will look like the below photo. You can RSVP on this screen. Just tap Yes, No, or Maybe. If you want to see who is coming, tap View under the word “Maybe”.

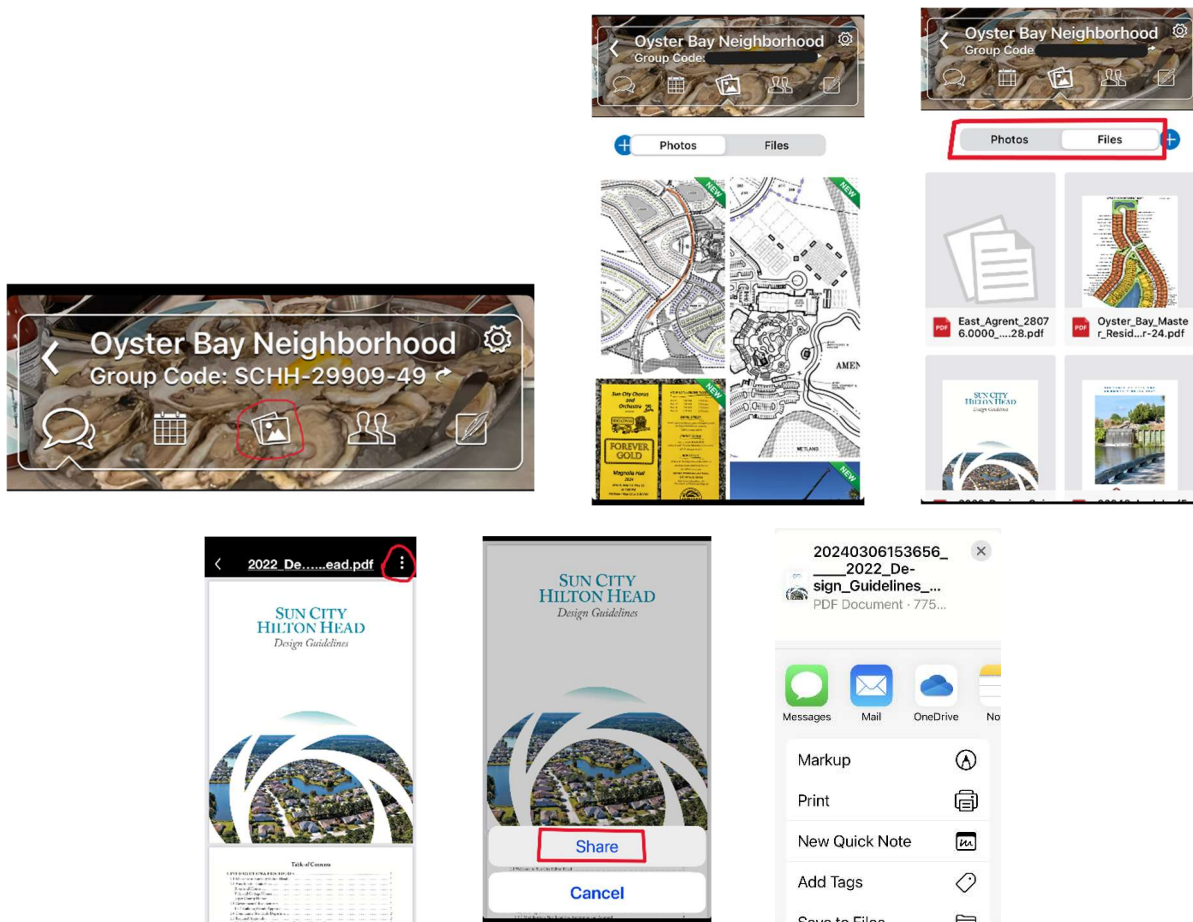

This is what you will see when you tap “View”

TO DOWNLOAD A PHOTO OR DOCUMENT

If someone adds a photo or document to a post and you want to look at it on your computer (to see it bigger for easier reading):

- Go to the photo icon at the top of the screen and tap it. The next screen automatically goes to the photos that have been posted.
- You will see “Photos” and “Files” at the top of the screen. If you want to see a document, tap the “Files” tab.
- If you want to download a particular document, tap it.
- You will then see 3 dots at the top right-hand corner of the screen. Tap the 3 dots.
- You will see “Share” and “Cancel” at the bottom of the screen. Tap “Share”.
- You will then see the various options to save or share the document, depending on which phone you have.
- Proceed as you usually do with your phone. **** See photos below ****

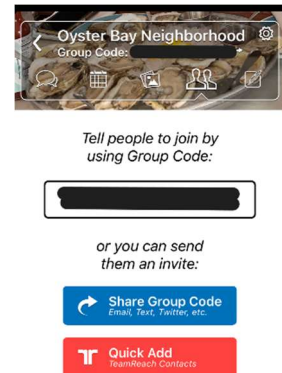

TO ADD PEOPLE TO A GROUP ON TEAM REACH

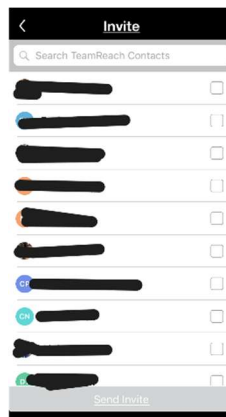

First be sure you're allowed to do that! Go to the group in which you want to invite people. Perhaps you're adding someone to your "cards group". Tap on the *people icon* at the top of the screen. On the next screen which lists all the members, tap the blue **+Invite Others** box near the top of the screen.

You will then see this screen →

You can either copy the code and give it to someone verbally ~ or in a text or email, etc. by clicking the blue **Share Group Code** box. Or you can click the red **Quick Add** box. Use this if adding people with whom you're already connected on Team Reach to a new group. If you tap the red **Quick Add** box, you will see this screen:

Tap in the box next to the person's name who you want to add to the new group. *Send Invite* will then light up in blue at the bottom of the screen. Tap *Send invite* and they will see the invitation the next time they open the Team Reach App.
